

TEAM DIRT

BUILD IT. RIDE IT. 2015 CAMPAIGN

Are you looking for a **new** destination area with miles of unique trails along with shuttle and camping opportunities?

Are you from Eugene or Corvallis and looking for a **new** place to trail run or ride after work?

Are you excited about **new** "Beaver Built" mountain bike trails at OSU ?

SUPPORT TEAM DIRT AND HELP US EXPAND THE ALSEA FALLS AND MAC-DUNN FOREST TRAIL SYSTEMS!

During the short window for the 2015 Build It / Ride It Campaign,
Team Dirt aspires to raise \$60,000 for

- an excavator,
- a mechanized wheel barrow,
- a trailer for equipment storage, and
- additional trail building tools,

so we can expand our trail systems with 30+ miles of proposed enduro, flow, downhill, and cross-country trails within the next five years.

Team Dirt volunteer time can be more effectively utilized with the support of machinery. Instead of spending countless hours breaking new ground by hand – a slow and tedious process – sustainable trails can be quickly and effectively structured using an excavator, and volunteers can instead use their efforts to polish the miles of new trails for you to ride!

DONATE TO THE BUILD IT, RIDE IT CAMPAIGN TO HELP US REACH OUR GOAL!

Want to help but don't have money to donate?

Team Dirt always needs volunteers! Visit <http://www.teamdirt.org> or the [Team Dirt Facebook Page](#) for the event schedule.

WHEN

March 15
through
April 30, 2015

GOAL

\$60,000
*to support the completion
of 30+ miles of proposed
trail*

DONATE

*Visit Indiegogo to
contribute to Team Dirt at*
