# Alsea Falls - Misery Whip

Center Page Justified

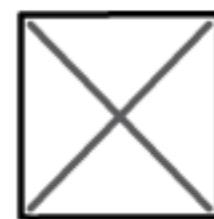

Proposed Map.  
Initial First Planning.

## Quick Facts

Length	2000m
Difficulty Rating	Medium
Riding Type	Enduro
Elevation Gain	100m
Start Date	2011-01-01
Expected Finish	2011-01-01

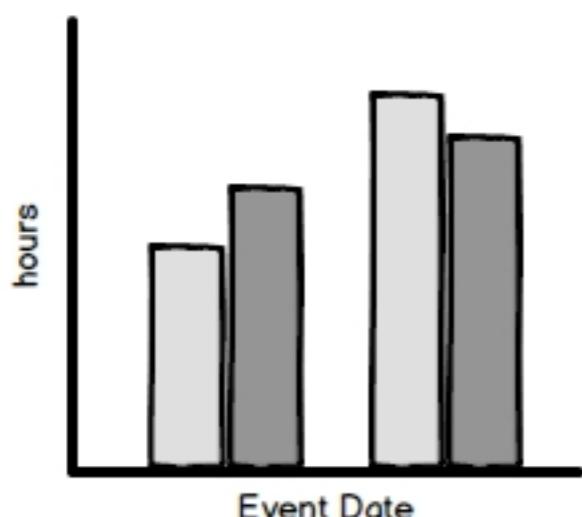

Land Management Partner

## Description

Alsea Falls - Misery Whip is a singletrack trail located in the Alsea Falls area. It starts at the parking lot and follows the river through a dense forest. The trail features several technical sections, including a rocky section and a steep descent. The trail ends at a scenic overlook of the falls. The trail is approximately 2000m long and has a medium difficulty rating. It is recommended for experienced riders who enjoy enduro-style riding. The trail has a 100m elevation gain and was completed on January 1st, 2011.

## Past Volunteer Events

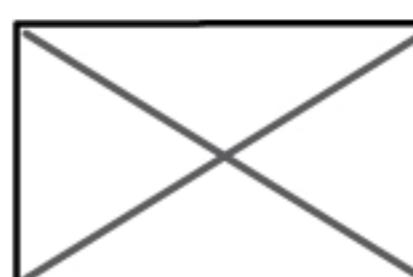

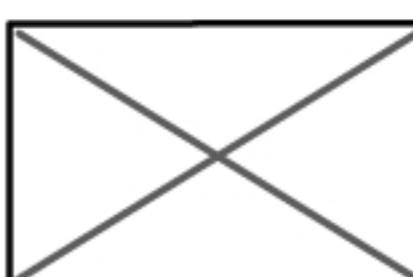

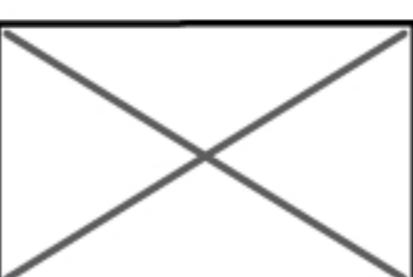

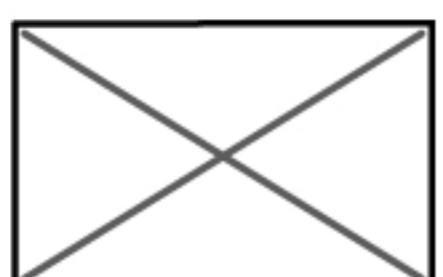

## WorkLog

Date	Workdone	Estimated Length
02.01.2011	Benching, Corridor Clearing	500
12.01.2011	Benching, Corridor Clearing, Grade	800
15.01.2011	Benching, Corridor Clearing, Features	800
17.01.2011	Benching, Corridor Clearing, Downed Tree Cleared	100

This is a template of what a OpenProject would look like. Wash and repeat for the other open projects.

Past Volunteer Events, requires Phase 3 of the project.
